INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

In accordance with 37 C.F.R. §§1.56, 1.97 and 1.98, Applicant wishes to make of record the items listed on the accompanying Form PTO-1449. Applicant respectfully requests the Examiner to fully consider the items and independently ascertain their teaching before issuance of the next action, and to make them of record in the file. The Examiner is also requested to initial and return a copy of the enclosed Form PTO-1449 to evidence such consideration.

1. Applicant has listed publication dates on the attached Form PTO-1449 based on information presently available to the undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated. Applicant reserves the right to establish the patentability of the claims over any information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered. This Information Disclosure Statement should not be construed as a representation that information more material to the examination of this application does not exist.

2. The references listed on the enclosed Form 1449 are references that have come to light in applications listed in the Information Disclosure Statement of November-December 2000. For many of the listed references, pertinence is mentioned in the respective application file in which the reference came to light. Applicant has not reviewed all of them in detail. Of those that have been reviewed, none of the references are believed to be any more pertinent than the references provided in earlier IDS' and Forms 1449. However, in an abundance of caution, Applicant requests that they be considered.

3. For items other than U.S. patents listed on the enclosed Form PTO-1449 for which a copy is not already made of record in this application, a copy was previously cited by or submitted to the Patent and Trademark Office in application Serial No. 09/239,194, filed January 28, 1999, Yates et al., Executing Programs for a First Computer Architecture on a Computer of a Second Architecture, in application Serial No. 09/322,443, filed May 28, 1999, Reese et al., Profiling of Computer Programs Executing in Virtual Memory Systems, or in application Serial No. 09/385,394, filed August 30, 1999, Yates et al., Computer for Executing Two Different Instruction Sets, or in application 09/626,325, filed July 26, 2000, Yates, et al., Computer with Two Operating Systems.

4. Copies of many of the U.S. patents listed were also earlier submitted in these same applications. However, because the Office no longer stores copies of U.S. patents in Image File Wrappers, the Office no longer requires submission of copies of U.S. patents, as confirmed by phone call to the Office of the Commissioner of Patents. Therefore, no copies are provided.

5. Many (but not all) of the U.S. Patent references supplied here have been listed on prior Forms 1449, which was signed on 9/2/2004, suggesting that these references were considered. However, the individual lines are not initialed. Applicant re-submits them, to have them initialed so the record is clear.

6. The Dean, three Intel, Hank, Kavi, non-patent literature references have been previously cited. They are cited again here with improved bibliographic information.

7. This Information Disclosure Statement is being filed to the knowledge of the undersigned, before the mailing date of a first Office Action on the merits after filing of a request for continued examination filed herewith. No fee is due, pursuant to 37 C.F.R. §1.97(b)(4).

8. The Commissioner is hereby authorized to charge any additional fees that may be required for this Information Disclosure Statement, or credit any overpayment, to Deposit Account No. 23-2405, Order No. 114596-26-0051BS.

Respectfully submitted,
